

Zone Editor

Domains

DNS converts domain names into computer-readable IP addresses. Use this feature to manage DNS zones. For more information, read the [documentation \(//go.cpanel.net/zoneeditor\)](https://go.cpanel.net/zoneeditor).

Warning: Please keep in mind that the changes to DNS records will require some time to propagate throughout the network. It usually takes about 30 minutes. Do not hesitate to contact us via [LiveChat \(/unprotected/nc-cpanel/nc-livechat/live-chat.php\)](https://unprotected/nc-cpanel/nc-livechat/live-chat.php) or [Ticket \(https://support.namecheap.com/index.php?/Tickets/Submit\)](https://support.namecheap.com/index.php?/Tickets/Submit) if you have any questions.

Zone Records for “umwarimu.com”

Configured nameservers for this zone: dns1.namecheaposting.com dns2.namecheaposting.com
